## Comprehensive Solutions for Evidence Collection

**eTWIST** Evidence Collection is a Patent Pending innovative solution designed to ensure the chain of custody at the crime scene.

**eTWIST** Evidence Collection software coupled with the Motorola® MC55/75 and the Zebra GX420t allows officers to identify, document, record, and track evidence at the crime scene.

- Windows Mobile® 5.x or 6.x based software, with barcode or RFID capabilities, is designed for unobtrusive evidence tracking
- The cellular option allows all data, including DSN, CASE#, Time and Date, Geo-Tracking, Bar Code # and Evidence Description to be uploaded to a database ensuring crime scene chain of custody
- A perfect tool for law enforcement, military, or private enterprise applications to Protect the Truth

**eTWIST** available exclusively at Primary Marking Systems Inc & Bluestar Inc!
