Comprehensive Solutions for Asset Inspection

Firefighter In-a-Box | Asset Inspection is an efficient and flexible mobile inspection solution designed to offer fire departments easy and accurate asset monitoring.

- Reduced paperwork with greater return-on-investment and cost savings
- Increased productivity per Inspector
- Real-time communications to back-end systems

The TracerPlus FireMaster software application when teamed with the Motorola MC75 and Datamax•O'Neil MF2te printer provides a rugged out-of-the-box solution for any fire department.

Firefighter In-a-Box is available exclusively at Primary Marking Systems Inc!
